ARCHITECTS WANTED

Gallaudet College is very fortunate to have a fine group of 19th Century buildings on its campus. Through the years, though, deterioration has set in and in many instances much of the original character of the buildings has been lost. In order to revitalize these buildings and to insure their survival, the College is undertaking a preservation and restoration project.

The President's Office is currently searching for an architectural firm to conduct a feasibility study for our historic district. To be considered, an architect should have experience with:

- 1) restoration and preservation architecture with specific expertise in developing feasibility studies;
- 2) adaptive use of older buildings;
- 3) coordination of contemporary design with historic design, and 4) landscape design.

If you have any recommendations, please submit, by February 4, their names, addresses and reasons for your recommendations to Judy Bortner, Special Projects Manager, President's Office.

ORIN CORNETT TO SPEAK IN VIRGINIA

Orin Cornett, director, Cued Speech Programs, will address the Association of Governing Boards of Universities & Colleges at its National Conference, March 13-15, 1977, in Williamsburg, Va. His subject will be "Institutional Planning and the Role of Trustees."

ON THE GREEN is published each week by the Office of Alumni and Public Relations for the faculty and staff of Gallaudet College.
